

To City Council

1236 San Andres ST

Jan 14, 2008

650 Miramonte Dr

Santa Barbara, Calif

Paula Clements 931617

962-6508

There is an appeal here. Save these houses - 2 - plus shed and workshop. They have old growth Redwood throughout, except for the Workshop. It came later. Condo project is out of place. Don't move or dismantle the house. That was what was decided 1-10-08. Don't allow Condos at all. Let the site remain with all structures as they are. It is good to keep them there. They are good neighborhood housing. It is my Childhood Home.

Thank you

This was before the Planning Commission
Jan 10, 2008.

Paula Westerinen
650 Maranatha Dr
Santa Barbara Calif 93109

Dear City Council Members,

This is an appeal of the decision of Jan 10, 2008 before the Planning Commission regarding the 1236 San Andrews St Project. It is not safe in an Earthquake as it has a 2 story status. It is "in your face" - doesn't have additional 25' setback of the present House and the neighborhood generally. People spoke up and said "it is horrendous", "not in keeping with the neighborhood", "too high", "too big", "not beautification" etc. Public view is affected.

This is Historic Bungalow type area with yards. This house has open space 25' in front, 6' on N side, 13' 6" on S side, 40' between houses. Condo has next to none and compared to what is there now, wanted 3' not 6'. People like to Preserve the neighborhood.

The houses are strong, full of Redwood 5,000 yrs old, 2" x 6" + 2" x 4" etc 4" x 4" and very well built. All structures are strong. The land is wonderful, open space is pristine. Lumber is pristine. It is Landmark status and belongs on the National Register or at least Structure of Merit. It is an extraordinarily exceptional building. All buildings are safe in 25 Earthquake. Keep them.

The Westbury Family was here from 1946 to 1951. The Apicot tree was there. There are exceptional things there. Indians lived by the Creek and they are still there. Everybody knows Indians lived by the Creek. The Burial ground is Big and is old - 90,000 years and more. Ceremonial aspects are good - sun, moon, stars, rain coming when needed, all needs Protection. The Westbury family had yards and open space for the children and the Indians helped them. They need protection from the one-sided inappropriate building project. They helped the children to be well and still help the AIDS patients help the children to be well. Don't ever excavate. There are Indians helping people have Peace & Property never excavate. Also 29 tribes, 50 individual Native helping people live villages. Save all, Big Peace Place, Harrington over time brought 29 tribes home from Israel and Ireland etc. They are buried here. Smith-Smyth was active here in 1922, got Landmark status. Save all trees and house and open space. Live longer. Spanish Explorers were here, Cabrillo's footprint are here. Never disturb the ground, historic, leave all as is. Be well.

Save historic and safe Santa Barbara. leave open space. Condos are not 50' from the Bank of Mission Creek. City didn't resent the numerous letters and petitions to the Hearings or phonecalls, and communicate. Be well. Save Santa Barbara Housing.

The Condo project is 25' from the Bank, the Bank of the Creek, which is a big drop off in the back part of the property instead of 50' which is required. That's old Mission Creek.

Jan 16, 2008

Tanya Westbury
650 Miramonte Dr.
Santa Barbara, Calif.
93109

People don't want the Condo Project,
Petitions to Save Neighborhood Housing
Preserve the House and Buildings, Preserve Open Space, Views,
1 story more appropriate housing were signed by at least 79
people. The second part of the Petition concerned the
Neighborhood Preservation Ordinance, safety of one
story, not grading and destabilizing the land,
preserving trees, Condos not being appropriate to the
Bungalow or wood type neighborhood, and Scene
nature and character of the neighborhood as they
are huge and taking up all the space, are massive
and cut off public views. It is to Preserve the Neighborhood,
Don't demolish it, Save House and Buildings and Yard
and Trees. Don't grade. Let the Neighborhood Be - at
least 57 signatures. The third part of the Petition
concerned making the House and Yards and Land
Historic, with City Records showing Redwood Beams
in 1925 etc. See petition. The Buildings went through
the 1925 Earthquake (3 built then - 2 Houses, shed), Yard
was occupied by people for hundreds if not
Thousands of years, therefore consider the 1236
SanAndreas Site Historically Significant. (got it)
22 signed the third part, at least. There were
many other signatures turned into the City and
Collected. Many people spoke to Lake Jacobus concerning
making the House and Site historic. It's pretty
obvious the Bungalow Area is Historic
People want it Preserved.

The House is very good Housing and has
been continually occupied. It is very good
community Housing. The Mudrys had it for
55 years and were a stable aspect of the
community. She said She preserved it, She
left it to the tenant. She did not want
it ever to be hurt. Please never ever let
it be demolished. Leave it where it is. Don't
tear it apart, ever. Don't move it. Preserve
our precious neighborhoods. It's my Childhood
House.

Never permit Condos here.

P3

Appeal 1234 San Andrews

Jan 14, 2008

Paula Westbury
650 Miramonte Dr
Santa Barbara, Calif. 93101

Additional important information:

1. Mudrys had everything permitted. Structure was marketed as workshop, not dwelling.
2. Jan Hubbell of City Planning said she would apply for Historic Status and we provided historic information.
3. Condos are cinderblock.
4. People at Hearing protested congestion and overcrowding. People were concerned about Condos - color, style, more trouble, lack of open space, 2 stories, mansification, sawing trees, size, 60's Retro Hotel aspect (negated), maximum profits at the expense of the community, Hi-rise incompatible with neighborhood, (need to respect) S.B. style, no redeeming value. They said Cherish old neighborhood, lovely old house, some old trees, charm to home, trees, next to park, upright, upright to keep old neighborhoods, Save it, structure of merit.
5. Builder said he wasn't going to build after the Hearing of 1-10-08.

So please remove the approval and turn down the project as it doesn't suit the site and doesn't fit in with the community. Please protect Santa Barbara, turn the project down, Save the Old Growth Redwood Tree House and shed and all structures. Leave them on the site. Save historic Bungalow area. Save Indians. Save all there. Be well. Save Housing.

Sincerely,

Paula Westbury
PAULA WESTBURY

6. Site is affected by flood plain on maps
7. Project was voted down in first ABR meeting as it was inappropriate to the site, then someone changed their mind & continued
8. aerial photos showed that the present structures fit in.

Addendum

A

People said: "the present buildings" have their own unique charm and maintain the historical and contemporary continuity and integrity of the neighborhood..."

"appropriate size dwelling" allows for a good view... unobstructed view of the creek bed, trees and distant mountains.

"Placing a large 4 condo - 8 garage building on that particular site" is overbearing and overcrowding by putting too much building in too little area."

"It's challenging the geological stability of the creekside flood plain... by extending development too close to the edge of the creek and risking further erosion problems"

"It will significantly block the mountain and creek and Park views and adversely affect the charm and accessibility of the area in general."

"Radically alter the neighborhood"

"The quality & character of the neighborhood are permanently changed"

"Single family dwellings are not congested"

"Parking and traffic are adversely affected"

Save Historic Santa Barbara

B. Builder quoted Helene Schneider standing in front of his 1822

San Paschal complex: "This is what we don't need in Santa Barbara!"

c.

1236 San Andrews St Appeal

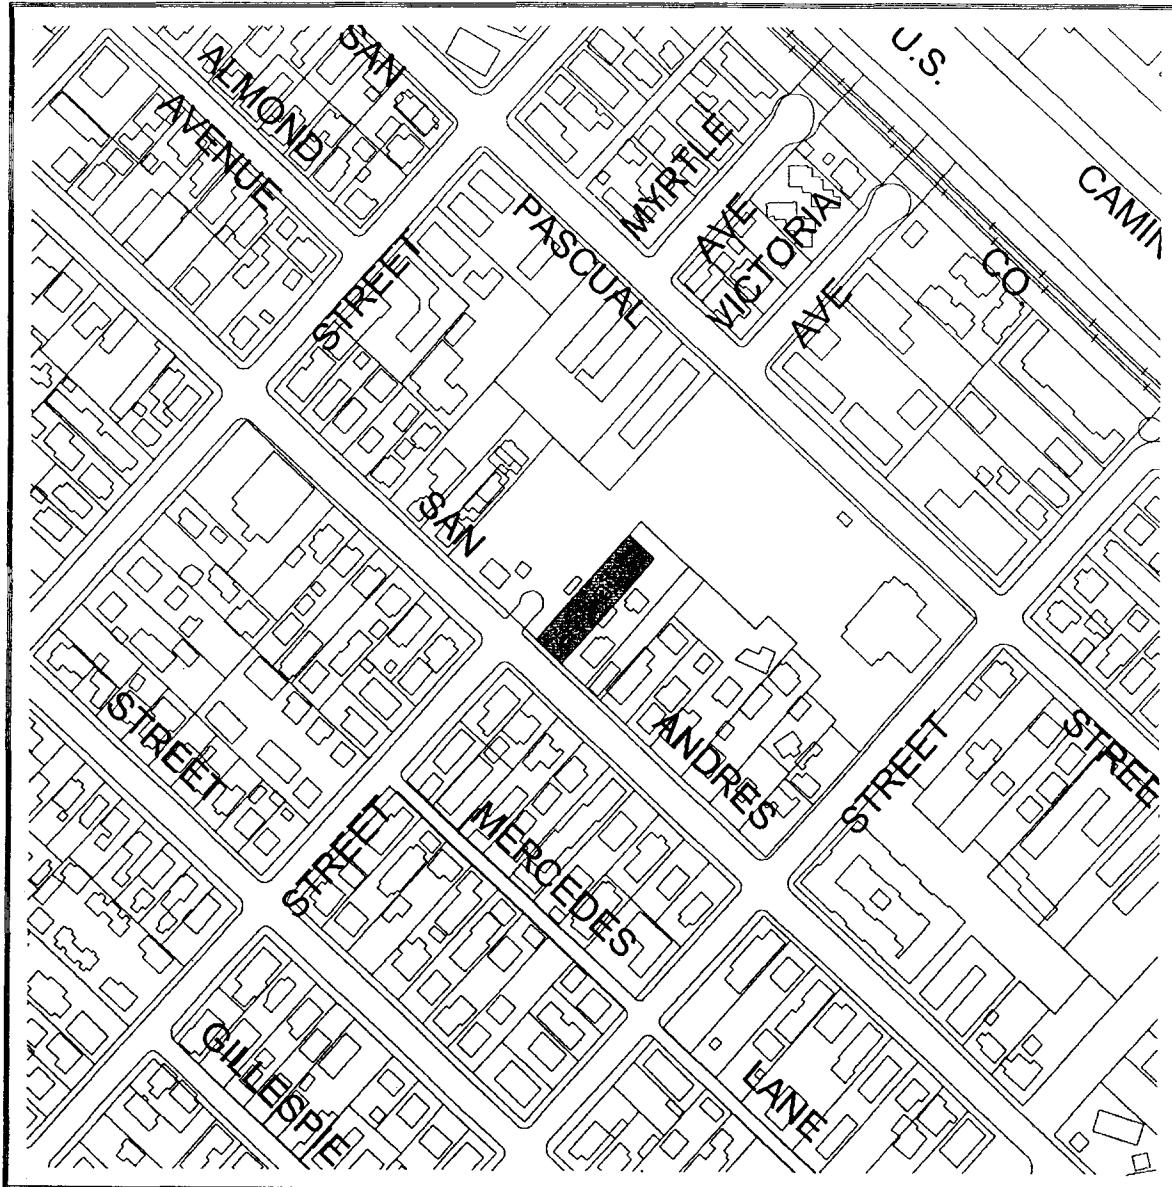

Pamela Westbury
650 monument Dr
Santa Barbara Calif 93101

never develop the neighborhoods. Never change socially,
never so close to the precipice. never take away the yards,
leave open space. Save the view. Trees and plants need to
stay, never dominate. Keep all intact. Keep Historic areas
Furthermore. Save Burial Grounds, Ceremonial Areas. They
need to remain intact. Never bulldoze. Never more.
Be well. Don't tear down. People want it saved. Fay
Westbury thought the photo of the house that was on
the screen so long didn't do justice. It is a very good
place to live. We love it. The site provides for 2 families.
Neighbors don't want such a big building - 4 Condos + 8
garages there. Be well. Old Growth Redwood tree
houses need to be preserved. Preserve them.

The owners really have provided considerable
benefit to the community. They really appreciated
the home and over time it survived to provide
strong, safe housing. It is the Bungalows area
of Santa Barbara. It fits the neighborhood and
the children have greatly appreciated it. It is
family friendly. It is the right size for the site.
It is historic. Historic yards are child and adult
friendly. We don't need 3' instead of 6' on the North side
of the Condo Project. The Condo project is too big.
It is out of place. Too close to the drop-off or bank
of the creek. Save the present housing. It is
much wanted. It will last. It is safe. It
is a wonderful place for children and adults.
Turn down the Condo project.

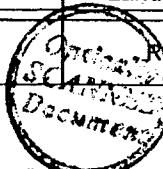

Sincerely
Paula Westbury
PAULA WESTBURY

ABR

Neighborhood Preservation Ordinance ref. 1236 San Andieost

A. Present house is one story, safer in Earthquake

than proposed 2 story Condos

B. Save the present house + yard + never grade the land
then the ground is stronger + is not destabilized

C. There are very important trees to be preserved

They greatly benefit the community - Help the
children + adults have a wonderful time

D. The Condos do not fit in this area at all - these

are Bungalow type or wood houses
generally, with porches + yards in
front and side + back with a lot
of open space. Trees are prevalent.

The development does not consistent with
the scenic nature + character of
the neighborhood. Condos are Huge +
takes up all the space. This is not
healthy

E. Condos are many too big, massive +
oversizable. Not appropriate
to the neighborhood. The other
houses have been there a long
long time. Preserve the West Side
neighborhood.

F. Two story + great bulk of prospective
project cuts off public views so people can't
see the trees of the Park + the mountains
if you can see them. Keep the
neighborhood open, let the light through.

We believe the neighborhood should be preserved. Don't demolish it
and the House + Buildings and Yard + Trees
on't grade. Let the Neighborhood Be -

1236 San Andres

Please realize that the House and buildings and yard are historic as Redwood is the wood of 2 houses. They were around \$1,000 or per yrs ago more or less. The third structure is excellent. The 1925 City Paper work shows beams of redwood, which is numbers Redwood Mudsills 2x6 batters 4x4, First Floor Joists 2x6 So. Save the plane and all around. Bellall the forms of the City show Redwood as part of the form - so there is a lot of redwood in these houses - very strong old fashioned structures. They went through the 1925 Earthquake, Zengenay so please save them. Please consider the houses + building and yard historic. Let all stay there.

Date Signature Name

Start Here we believe that the house is historic as city records show that the structures had Redwood Beams in 1925. The City Records are historic too. It's been there a long time. Save these Redwood Houses (2) and the other structure. The yard is historic as it still exists. The structures are near the creek which area was probably occupied by people for hundreds if not thousands of years. Therefore please consider the 1236 San Andres site + structures historically significant.
